

WRMA's Learning and Resource Center 508 Compliance Services

Our team of 508 compliance experts includes testers, designers, and copy editors. Accessibility considerations are engrained in our workflow, reducing the time required to remediate the product before publishing. Our services include...

Document Testing and Remediation

- Testing Word and PowerPoint source files
- Testing PDFs against various 508 standards (WCAG, HHS, PDF/UA)
- Correcting compliance issues in PDF, Word, and PowerPoint files
- Alt text writing for graphics and images
- Color contrast testing and correction
- Testing and validating interactive PDFs, such as fillable PDFs
- Running documents through a screen reader to ensure usability

Graphic Design

- Setting up products correctly up-front to reduce required 508 remediation later
- Developing InDesign, Word, and PowerPoint templates with 508 compliance considerations built-in
- Conducting 508 quality checks during product creation to ensure work is progressing correctly
- Color contrast testing and correction
- Adhering to brand guidelines, making recommendations to align with 508 requirements

Web Development and Design

- WCAG compliance testing
- Web accessibility auditing
- Building in ARIA attributes to increase understanding of content for individuals with disabilities
- Color contrast testing and correction
- Generating accessible descriptions for buttons and their various states (mouse over, clicked, etc.)
- Enabling buttons and icons to be accessed by keyboards for screen reader usability

e-Learning Development and Design

- Screen reader usability for the visually impaired
- Custom JavaScript code to personalize the user experience
- Keyboard compatibility and accessible features allowing easier use for the visually impaired

...And WRMA can ensure your communications materials are **well-polished.**

Copy Editing

- AP Style expertise
- Style guidelines development
- Plain language/readability
- Grammar
- Voice/tense consistency
