

Release the pressure

From concept to completion, we have your accessibility needs covered.

Document and Digital Accessibility Services

A centralized team of accessibility experts, designers, and developers

Making your content accessible is not only the right thing to do, but it also makes good business sense — we all benefit from accessibility. In the U.S., it's also the law, with recent legislation and litigation bringing accessibility to the forefront as a priority. TriMetrix is your trusted partner to ensure all your audiences can access your content and that your agency's good work meets accessibility standards.

Need your project to be accessible? We support all types of digital communications.

Websites and eLearning

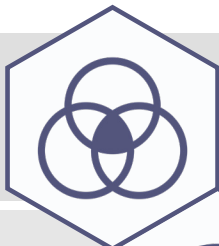

Word and PowerPoint

Video and live or recorded webinars

Clients rely on us to:

Bring accessibility expertise and health and human services know-how.

Having worked in mission-focused organizations for years, we understand your sector. We support federal agencies, state organizations, and businesses.

Design with accessibility in mind.

We collaborate with clients from concept to completion, checking off accessibility standards as we go. We build accessibility in, avoiding costly last-minute fixes.

Know the ins and outs of accessibility standards.

We get it. The standards can seem overwhelming. Our clients rest easy knowing we bring the deep technical expertise needed to achieve them efficiently and effectively.

Catch (and fix) errors that automated checkers miss.

Our process enables us to catch and fix those oversights. We build from the checkers by providing manual scans and testing using screen readers.

Bring joy and energy to our collaborations.

We're great to work with! Alongside expertise in accessibility, you'll find a friendly, responsive team who keeps your project on track and on time.

Proven accessibility expertise

Every day our accessibility experts provide clients with:

- **PDF testing** against various 508 standards (WCAG, HHS, PDF/UA)
- **Alt text writing** for graphics, charts, and images
- **Color contrast testing**
- **Closed captioning** for video and webinars
- **Testing and validation** for interactive content

Our team brings the following accessibility credentials:

- Section 508 Trusted Tester Certification: *Department of Homeland Security*
- Certification in Disability and Accessible Design: *University of Michigan*
- Section 508 + Word + PDF (Advanced): *Bevi Chagnon, Pubcom*
- Section 508 + InDesign + PDF *Bevi Chagnon, Pubcom*
